

apprenticeship FRAMEWORK

Higher Level Apprenticeship in Social Media and Digital Marketing - Level 4 (England)

IMPORTANT NOTIFICATION FOR HIGHER APPRENTICESHIP STARTS FROM 1ST AUGUST 2019

Current Apprenticeship funding rules state that those undertaking a Level 3 or Higher Apprenticeship are required to hold, or achieve as part of their Apprenticeship, a Level 2 qualification in both English and Maths. Furthermore, the funding rules state that, to attract government funding, at least 20% of the Apprentices paid hours, over the planned duration of the Apprenticeship training period, must be spent on off-the-job training.

Therefore for any Apprentices starting a Higher Apprenticeship on, or after 01/08/2019, there is a requirement for them to have achieved Level 2 English and Maths and fulfil the 20% off the job training requirement. This is in order to align certification requirements with the funding rules. Apprenticeship certification claims will require the relevant achievement evidence to be uploaded.

CHANGES TO THE ENGLISH AND MATHS REGULAR MINIMUM REQUIREMENTS FOR APPRENTICESHIP STARTS FROM 21 SEPTEMBER 2018 AND APPRENTICESHIPS REMAINING INCOMPLETE ON 21 SEPTEMBER 2018.

Modifications to SASE came into effect on 21 September 2018. Accordingly, SASE publication DFE-00236-2018 applies both to new Apprenticeship starts from 21 September 2018 and all Apprenticeships commenced before this date and not completed by 21 September 2018.

The SASE modifications have further extended the list of qualifications that meet the minimum English and Maths requirements. This now allows for the acceptance of a wider range of UK-wide qualifications and also certain international qualifications, where these are supported by a suitable NARIC Statement of Comparability.

Full details relating to the exceptions eligibility criteria are contained in:

Section 5 of SASE for Intermediate Level Apprenticeships
Section 31 of SASE for Advanced Level Apprenticeships

Please note that some frameworks may have English and Maths grade/level requirements that are **above** the SASE **regular** minimum requirements. The exceptions relating to the use of British Sign Language or Entry Level 3 qualifications, detailed above, **do not apply** to **industry-specific** minimum entry requirements.

Please check specific framework documents to ascertain where this is the case and/or check directly with the Issuing Authority responsible for the framework.

Please note that the Transferable Skills tables within this document have not been updated to reflect the recent SASE changes and do not include the expanded range of acceptable qualifications. Refer to SASE for a full list of acceptable qualifications.

The updated version of SASE can be accessed here:

- Mobile marketing manager

- Web designer
- Web product manager
- Web analyst
- Video marketing director
- Video marketing editor
- Video marketing online channel manager
- Digital marketing manager/director

Contact information

Proposer of this framework

This apprenticeship has been proposed and developed by City & Guilds, the Digital Pathway is currently the only pathway for Level 4 and was developed in partnership with Agilisys Arch. Employers were engaged through the Agilisys consultation group, this included Zip Car, Contentive, Google, Incisive Media, Azimo Ltd, Charities Technology Trust, Ladders Associates, Big Choice, UK Youth, Middleton Murray and Livity. Training providers and colleges were invited to feedback and input into the development as well. We have engaged with and involved employers across the various sectors linked to this framework to ensure strong links to job roles. Consultation surveys were sent out, events organised to meet and discuss the qualification content and an academic board created to review the development.

AIM Awards Level 4 Diploma in Digital Marketing

Purpose of this framework

Summary of the purpose of the framework

An Apprenticeship is a job with an accompanying skills development programme designed by employers in the sector. It allows the apprentice to gain technical knowledge and real practical experience, along with functional and personal skills, required for their immediate job and future career. These are acquired through a mix of learning in the workplace, formal off the job training and the opportunity to practice and embed new skills in a real work context. This broader mix differentiates the Apprenticeship experience from training delivered to meet narrowly focused job needs.

All apprentices commencing their Apprenticeship must have an Apprenticeship Agreement between the employer and the apprentice. This can be used to reinforce the understanding of the requirements of the Apprenticeship.

On completion of the Apprenticeship the apprentice must be able to undertake the full range of duties, in the range of circumstances appropriate to the job, confidently and competently to the standard set by the industry.

Profile of the Sector

Digital marketing and the use of social and digital media is a key part of business marketing strategies and practice today. The growth of this industry sector has seen a number of jobs advertised for social media experts. A survey of over 500 companies carried out by eConsultancy/Experian in early 2012 found businesses were planning on expanding their digital marketing presence and subsequent departments but felt the shortage of skilled workers in this area was preventing them from fully harnessing digital media.

Businesses are looking for more digital marketing capability and capacity which is increasing the demand for skilled people in this sector. This framework was created to equip learners with the ability to understand, utilise and develop the skills needed whilst working in social media and digital marketing for business purposes. It also builds in transferable skills such as communication, team working, interpersonal skills and the ability to reflect on personal learning.

This apprenticeship will help to develop skills to allow apprentices to understand what social media and digital marketing is, how to utilise it in a business environment and incorporate it into their job role. Job roles may include Social Media Assistant, Social Media Consultant and Social Media Analyst with responsibilities such as managing and monitoring online communities, working with businesses to promote, utilise and increase presence through social media, copy writing and media placement, development of social media strategy and seeking

out new and relevant content, formulating the content calendar and identify key bloggers and influencers. For a full list of specific roles and responsibilities please refer to the section on job.

Social media is still young and we are in the 'early adopter' phase for companies. There are over 500 million active users on Facebook, 105 million registered users on Twitter and 75 million professionals on LinkedIn.

Businesses need the support of a skilled workforce to enable them to make the best use of digital marketing tools and concepts.

The framework will contribute to meeting the skills priorities for Digital Britain.

Aims and objectives of this framework (England)

The aim of this apprenticeship framework is to provide employers in the public, private and not-for-profit sectors with a workforce who have the skills, knowledge and competency to support business systems, processes and services through social media. This will contribute to making businesses more efficient and productive. This framework has been created to help support the development of the specific skills needed for a job in this social media and digital marketing sector.

Entry conditions for this framework

Employers are looking to attract applicants who have a keen interest in social media and digital marketing. They expect applicants to demonstrate a "can do" attitude and have basic numeracy, literacy and IT skills on which the Apprenticeship will build.

Entrants will come from a diverse range of backgrounds, with a range of experience, age, personal achievements and, in some cases, prior qualifications and awards which may count towards the achievement of an apprenticeship programme. Examples include learners who have:

- held a position of responsibility at school or college
- undertaken work experience or work placement experience
- completed the Duke of Edinburgh Award or similar award
- achieved GCSEs or A levels
- achieved QCF Awards, Certificates or Diplomas
- undertaken an intermediate or advanced level apprenticeship such as IT application specialist, IT software, web and telecoms professional, Marketing, Business and Administration, Social Media and Digital Marketing
- achieved a (14-19) Foundation or Higher Diploma or related Diplomas in Business, Administration, Information Technology and Marketing

Initial assessment

- initial assessment should be used to identify prior learning and experience to tailor the Apprentice's Individual Learning Plan
- in the case of APL for competence, knowledge and integrated qualifications, the Apprenticeship programme must be tailored to allow the Apprentice to undertake new learning, including learning at a higher level, and development of new skills.

Level 4

Title for this framework at level 4

Higher Apprenticeship in Social Media and Digital Marketing

Pathways for this framework at level 4

Pathway 1: Digital Marketing

Level 4, Pathway 1: Digital Marketing

Progression routes into and from this pathway

Progression routes into the Higher Apprenticeship in Social Media and Digital Marketing at level 4

Progression onto the Higher Apprenticeship may be from a wide number of routes due to the varying backgrounds, past academic achievement or work related experience. Such routes may include, but not be exclusive to:

- Achievement of Advanced Apprenticeship in Social Media and Digital Marketing
- Achievement of Advanced Apprenticeship in IT, Software, Web and Telecom
- Achievement of Advanced Apprenticeship in Marketing
- Achievement of Advanced Apprenticeship in Business and Administration
- Achievement of Level 3 Certificate or Diploma in Social Media, ICT Systems and Principles, Business and Administration or Marketing
- Achievement of Level 3 Diploma in Digital Marketing or ICT Competence
- Achievement of (14-19) High Diploma

- Achievement of A Levels
- Appropriate work experience recommended as a minimum of 2 years, though employers may wish to place individuals on the Higher Level Apprenticeship based on their merit and/or capabilities

Progression routes from the Higher Apprenticeship in Social Media and Digital Marketing at Level 4

Apprentices will most likely take up a position of employment based on the units taken and chosen career, but will also have the opportunity to progress to such as:

- Higher level qualifications in management
- Higher education in Business, Marketing or IT related disciplines that may include Foundation or full degrees
- Recognition by a trade or professional body in their given discipline

UCAS points for this pathway: N/A

Employee rights and responsibilities

N/A

The remaining sections apply to all levels and pathways within this framework.

How equality and diversity will be met

This framework will support the government's Digital Britain initiative to break down barriers for hard to reach learners and ensure equality of opportunity.

This Apprenticeship framework is designed to help new entrants into the social media and digital marketing workforce, thereby ensuring fair access for all that apply for the programme. This Apprenticeship is seen as a vital route to encourage, enhance and up skill individuals into social media and digital marketing. It offers no barriers to entry and intends to accommodate all learners regardless of gender, age, disability or ethnic origin.

The learning content required for the off-the-job learning can be delivered in a number of different learning styles to accommodate learner requirements.

It is expected that all employers and training providers comply with the Equality Act 2010 to ensure that applicants are not discriminated against in terms of entry to, and progression within the sector, using the protected characteristics of:

1. Age
2. Disability
3. Gender reassignment
4. Marriage and civil partnership
5. Pregnancy and maternity
6. Race
7. Religion or belief
8. Sex
9. Sexual orientation

Historically, in many sectors, employers have expected new entrants to be educated to at least degree level and, as a result, there is a large pool of untapped talent. This framework aims to support and encourage that untapped talent to enter this emerging industry sector. There are no known or apparent workforce imbalances on the basis of gender or race.

The growth of social media and digital marketing has been rapid and the majority of users are self taught, therefore there is a lack of awareness of the level of skills held by the individual. This framework will support more formal training for this sector and broaden this workforce's knowledge and skills as this sector emerges and grows.

The diversity of the apprenticeship workforce reflects the social media and digital marketing workforce as a whole.
