# CHANGES TO THE ENGLISH AND MATHS REGULAR MINIMUM REQUIREMENTS FOR APPRENTICESHIP STARTS FROM 22 AUGUST 2017 AND APPRENTICESHIPS REMAINING INCOMPLETE ON 22 AUGUST 2017.

Modifications to SASE came into effect on 22 August 2017. Accordingly, SASE publication DFE-00167-2017 applies both to new Apprenticeship starts from 22 August 2017 and all Apprenticeships commenced before and not completed by 22 August 2017.

The modifications allow for an exemption to the English and Maths regular minimum requirements for people with Special Educational Needs, Learning Difficulties or Disabilities. This means that adjusting the minimum requirements to Entry Level 3 in English and Maths can be considered by the provider, on an individual and case-by-case basis, where **all of the conditions** of the updated SASE section 18 (Intermediate level) or section 37 (Advanced level) for have been satisfied and can be evidenced.

Full details relating to the exceptions eligibility criteria are contained in:

Sections 15-23 of SASE for Intermediate Level Apprenticeships  
Sections 34-42 of SASE for Advanced Level Apprenticeships

When applying this exemption, providers must **STILL** consider how to enable the Apprentice to access further literacy and numeracy development – including Level 1 and Level 2 courses – as part of their overall training provision.

The modifications to SASE have also extended the list of qualifications that meet the minimum English requirements to allow for a British Sign Language (BSL) qualification, at the appropriate level, to be accepted as an alternative to a qualification in English, where **BSL is the primary language of the Apprentice**.

Full details relating to BSL acceptance are contained in:

Section 5(f) of SASE for Intermediate Level Apprenticeships  
Section 28(f) of SASE for Advanced Level Apprenticeships

Furthermore, the SASE modifications have further extended the list of qualifications that meet the minimum English and Maths requirements to allow for the acceptance of a range of UK-wide qualifications, as an alternative to qualifications gained in England.

Full details relating to the list of acceptable qualifications are contained in:

Sections 5(g-j) and 6(f-i) of SASE for Intermediate Level Apprenticeships  
Sections 28(g-j) and 29(f-i) of SASE for Advanced Level Apprenticeships

The modifications include reference to the new numerical grades in the reformed GCSE system and the **minimum** grade requirements. A grade 4 (new grading) will be considered equivalent to a grade C (old grading). A grade 2 (new grading) will be considered equivalent to a Grade E (old grading).

Full details relating to the numerically graded GCSEs are contained in:

Sections 5 and 6 of SASE for Intermediate Level Apprenticeships  
Sections 28 and 29 of SASE for Advanced Level Apprenticeships

Please note that some frameworks may have English and Maths grade/level requirements that are **above** the SASE **regular** minimum requirements. The exceptions relating to the use of British Sign Language or Entry Level 3 qualifications, detailed above, **do not apply** to **industry-specific** minimum entry requirements. Please check specific framework documents to ascertain where this is the case and/or check directly with the Issuing Authority responsible for the framework.

# Purpose of this framework

## Summary of the purpose of the framework

### National Apprenticeship Service (NAS) - Statement on Apprenticeship Quality Definition

An Apprenticeship is a job with an accompanying skills development programme, designed by employers in the sector. It allows the apprentice to gain technical knowledge and real practical experience, along with personal skills, required for their immediate job and future career. These are acquired through a mix of learning in the workplace, formal off the job learning and the opportunity to practice and embed new skills in a real work context. This broader mix differentiates the Apprenticeship experience from training delivered to meet narrowly focused job needs.

All apprentices commencing their Apprenticeship must have an Apprenticeship Agreement between the employer and the apprentice. This can be used to reinforce the understanding of the requirements of the Apprenticeship.

On completion of the Apprenticeship the apprentice must be able to undertake the full range of duties, in the range of circumstances appropriate to the job, confidently and competently to the standard set by the industry.

### Profile of the Sector

Digital marketing and the use of social and digital media is a key part of business marketing strategies and practice today. The growth of this industry sector has seen a number of jobs advertised for social media experts. A survey of over 500 companies carried out by eConsultancy/Experian in early 2012 found businesses were planning on expanding their digital marketing presence and subsequent departments but felt the shortage of skilled workers in this area was preventing them from fully harnessing digital media.

Businesses are looking for more digital marketing capability and capacity which is increasing the demand for skilled people in this sector. This framework is created to equip learners with the ability to understand, utilise and develop the skills needed whilst working in social media and digital marketing for business purposes. It also builds in transferable skills such as communication, team working, interpersonal skills and the ability to reflect on personal learning.

This apprenticeship will help to develop skills to allow apprentices to understand what social media and digital marketing is, how to utilise it in a business environment and incorporate it

into their job role. Job roles may include Social Media Assistant, Social Media Consultant and Social Media Analyst with responsibilities such as managing and monitoring online communities, working with businesses to promote, utilise and increase presence through social media, copy writing and media placement, development of social media strategy and seeking out new and relevant content, formulating the content calendar and identify key bloggers and influencers. For a full list of specific roles and responsibilities please refer to the section on Job Roles.

Social media is still young and we are in the 'early adopter' phase for companies. There are over 500 million active users on Facebook, 105 million registered users on Twitter and 75 million professionals on LinkedIn.

Businesses need the support of a skilled workforce to enable them to make the best use of digital marketing tools and concepts.

The framework will contribute to meeting the skills priorities for Digital Britain.

### **Aims and objectives of this framework (England)**

The aim of this apprenticeship framework is to provide employers in the public, private and not-for-profit sectors with a workforce who have the skills, knowledge and competency to support business systems, processes and services through social media. This will contribute to making businesses more efficient and productive. This framework has been created to help support the development of the specific skills needed for a job in this social media and digital marketing sector.

# Entry conditions for this framework

Employers are looking to attract applicants who have a keen interest in social media and digital marketing. They expect applicants to demonstrate a "can do" attitude and have basic numeracy, literacy and IT skills on which the Apprenticeship will build.

Entrants will come from a diverse range of backgrounds, with a range of experience, age, personal achievements and, in some cases, prior qualifications and awards which may count towards the achievement of an apprenticeship programme. Examples include learners who have:

- held a position of responsibility at school or college

- completed the Duke of Edinburgh Award or similar award
- achieved GCSEs or A levels
- achieved QCF Awards, Certificates or Diplomas

## Initial assessment

- initial assessment should be undertaken to identify prior learning and experience to tailor the Apprentice's Individual Learning Plan and should not be used for screening out applicants;
- in the case of APL for competence, knowledge or Functional Skills, the Apprenticeship programme must be tailored to allow the Apprentice to undertake new learning, including learning at a higher level and develop new skills.

**The ERR component of the apprenticeship can be achieved through either:**

- a) the Skills CFA ERR workbook, available from their Skills CFA website ([www.skillsca.org](http://www.skillsca.org))
- OR
- b) a QCF Award in Employee Rights and Responsibilities (QCF) qualification.

For more information, please see Skills CFA's FAQ on their website ([www.skillsca.org](http://www.skillsca.org)). The workbook has been designed to enable apprentices to work their way through a series of questions and activities which will bring ERR to life, making the learning more meaningful and long lasting and enhance the employability skills of the apprentice.

## Evidence of achievement of ERR

Training providers and learners will be required to sign a declaration when claiming the Apprenticeship certificate, indicating that the ERR outcomes have been successfully completed

through either of the activities detailed above.

We recommend that an internal record of ERR achievement is retained, though this is not required as evidence when applying for the Apprenticeship Certification.

*The remaining sections apply to all levels and pathways within this framework.*

## How equality and diversity will be met

This framework will support the government's Digital Britain initiative to break down barriers for hard to reach learners and ensure equality of opportunity.

This Apprenticeship framework is designed to help new entrants into the social media and digital marketing workforce, thereby ensuring fair access for all that apply for the programme. This Apprenticeship is seen as a vital route to encourage, enhance and up skill individuals into social media and digital marketing. It offers no barriers to entry and intends to accommodate all learners regardless of gender, age, disability or ethnic origin.

The learning content required for the off-the-job learning can be delivered in a number of different learning styles to accommodate learner requirements.

It is expected that all employers and training providers comply with the Equality Act 2010 to ensure that applicants are not discriminated against in terms of entry to, and progression within the sector, using the protected characteristics of:

1. Age
2. Disability
3. Gender reassignment
4. Marriage and civil partnership
5. Pregnancy and maternity
6. Race
7. Religion or belief
8. Sex
9. Sexual orientation

<http://www.equalityhumanrights.com/advice-and-guidance/new-equality-act-guidance/>.

Historically, in many sectors, employers have expected new entrants to be educated to at least degree level and, as a result, there is a large pool of untapped talent. This framework aims to support and encourage that untapped talent to enter this emerging industry sector. There are no known or apparent workforce imbalances on the basis of gender or race.

The growth of social media and digital marketing has been rapid and the majority of users are self taught, therefore there is a lack of awareness of the level of skills held by the individual. This framework will support more formal training for this sector and broaden this workforce's knowledge and skills as this sector emerges and grows.

The diversity of the apprenticeship workforce reflects the social media and digital marketing workforce as a whole.

# On and off the job guided learning (England)

## Total GLH for each pathway

Guided Learning Hours can be attached to both the accredited and un-accredited parts of the Apprenticeship, and will include, for example, inductions, completion of the ERR workbook, reviews, training, the qualification, career discussions, Personal Learning and Thinking Skills (PLTS), Functional Skills and any other activities which help the Apprentice gather the required skills and underpinning knowledge needed within their job role.

It is recommended that a plan is developed at the outset of the Apprenticeship programme to determine how the Guided Learning Hours requirements will be met.

## How this requirement will be met

On-the-job guided learning hours refers to the time taken to develop the practical skills applied in the context of a job role. It can be seen as the time the apprentice spends being guided whilst undertaking normal activities as part of their job role, and which provide opportunities to learn, develop and practice skills.

### On-the-job Guided Learning Hours must:

- Achieve clear and specific outcomes which contribute directly to the successful achievement of the framework and this may include accredited and non-accredited elements of the framework.
- Be planned, reviewed and evaluated jointly between the apprentice and a tutor, teacher, mentor or manager.
- Allow access as and when required by the apprentice either to a tutor, teacher, mentor or manager.
- Be delivered during contracted working hours.

### Evidence of on-the-job Guided Learning Hours

While evidence of Guided Learning Hours is not required to claiming the Apprenticeship Completion certificate it is recommended that an internal record is kept for auditing purposes.

### Evidence requirements for Apprenticeship Completion certificate

- The completion certificate for the qualification
- The completion certificates for Functional Skills or equivalents
- A copy of the completed and current Apprentice Declaration and Authorisation form uploaded to ACE (<http://acecerts.co.uk>)

It should be noted that the Guided Learning Hours attached to the Functional Skills and the combined qualification are split between off-the-job and on-the-job learning hours. The expectation is that apprentices will undertake some learning off-the-job to achieve the underpinning knowledge attached to the qualification, supported by on-the-job learning to embed the knowledge and skills to practice its application whilst learning on-the-job.
