SASE FRAMEWORKS - SOME GENERAL PRINCIPLES

In addition to the details within SASE, the following sections of this guidance document provide further clarity regarding acceptable qualifications for the English, Maths and ICT requirements within Intermediate and Advanced SASE frameworks. **Please note that Higher Apprenticeships no longer have English and Maths qualifications as mandatory requirements.**

When trying to establish if a learner has a qualification that is acceptable within a SASE framework, please refer to the list of qualifications included within SASE. If the qualification achieved by a learner does not match any of the qualifications listed (and their stated minimum grade/level criteria) then it cannot be accepted.

PLEASE NOTE:

- All English qualifications should refer **only** to those qualifications where English is the primary language, unless explicitly stated.
- GCSE qualifications should be ones regulated by Ofqual, CCEA and Qualifications Wales.
- British Sign Language qualifications are **only** acceptable where BSL is the Apprentice's primary language.
- English and Maths qualifications at a higher level (e.g Level 4 and above) will be acceptable. For Scotland this is qualifications at SCQF Level 7 or above.
- For exemptions to English and Maths minimum requirements please refer to Section 18 onwards of current SASE.

SASE states **minimum** grade requirements for each type of qualification that is acceptable. These can be different for Intermediate and Advanced Apprenticeships. Where SASE does not state a **minimum** Functional Skills/Key Skills/GCSE (with enhanced functional content) qualifications account for grade requirement then any pass grade is acceptable. However, it is essential to check specific 5 credits each towards the total credit value of the framework. Apprenticeship framework requirements as framework developers may have set grades that are **above the minimum** level required by SASE.

CREDIT VALUES

Functional Skills/Key Skills/GCSE (with Enhanced Functional Content) qualifications account for 5 credits each towards the total credit value of the framework
